

Stephen Peacock – Artist in Residence

Welcome to the Jungle (2013)

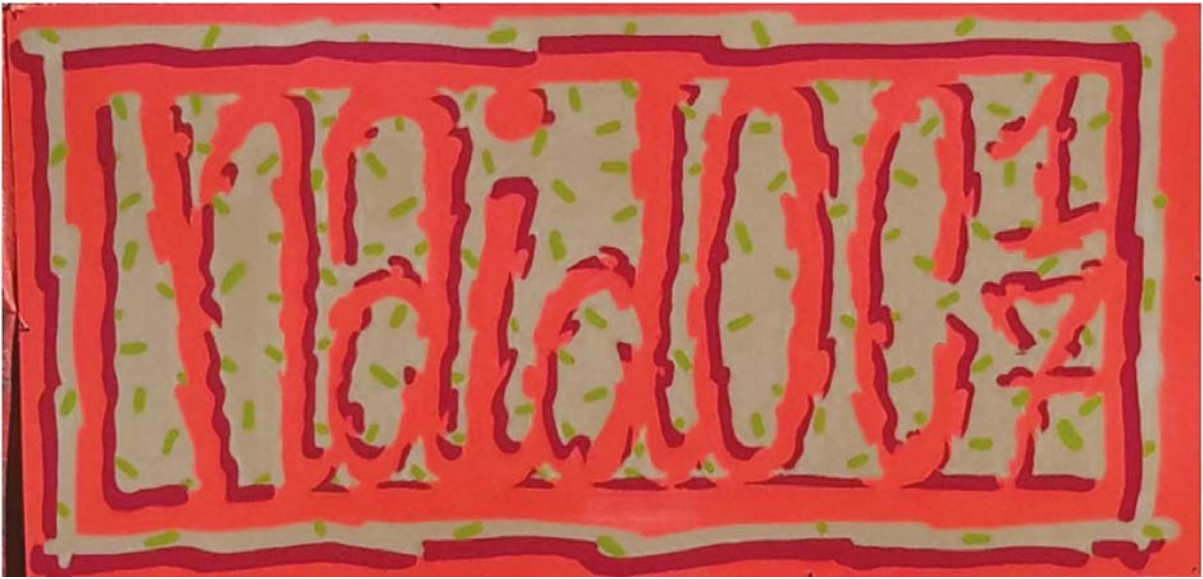

With a strong history in mural production and graphic design Stephen Peacock has spent over 15 years producing work across Australia and around the globe. Employing the artistic process as a way of producing positive social and community benefit has been an underlying methodology throughout Stephen's practice. More notable works and workshops include: Better Way Program (2011), Keep Australia Beautiful (2011), Hospital Militar Principal (Military Hospital, Lisbon, Portugal, 2011), United Learning Centre (School for Myanmar refugees Kuala Lumpur, Malaysia, 2014), Alma Street Centre (Fremantle Hospital in conjunction with Mental Health Week, 2015) and a continuing place producing works for the Town of Bassendean's NAIDOC Week celebrations. While

Island Paradise (Section of Alma Street Centre murals) 2015

continuing to expand an already extensive résumé of voluntary and commissioned work for government, business and private sectors, Stephen is currently pursuing his Bachelor's Degree in Fine Art to enhance his repertoire and further his influence into more traditional gallery spaces. Never forgetting his roots Stephen's work maintains his sense of bold colours and strong forms; as he says, "The right piece of colour can brighten up anyone's day."
