

# Primary Languages Enrolments at

The School of Isolated and Distance Education (SIDE) provides students with teaching and learning programs where there are limitations at their base school, such as:

- limited availability of specialist teachers
- timetabling constraints.

## INFORMATION

Information about school-based enrolments at SIDE, including the School Partnerships – Service Provision, can be accessed via the SIDE Website: [School-based Enrolments](#).

SIDE Primary Languages Curriculum and Program information is available at the following location:

[Primary Languages Program](#)

## SUCCESS

### Success at SIDE

Schools enrolling students at SIDE can support their students for success by:

providing a dedicated SIDE supervisor and point of contact at their school who will:

- communicate and collaborate with SIDE teachers
- actively support students as they participate in live lessons and with work submission
- communicate relevant base-school information (eg term calendars).

ensuring access to an appropriate learning environment with an internet connection as fast and reliable as possible.

Where students are using individual devices:

- PC or laptop computers (including BYOD devices). PCs/Laptops should run Windows 11 or Apple Mac (OS version 10.15 or above). Other devices such as iPads, Windows 10S, Android tablets and Chromebooks will not fully function with our online teaching platforms
- software installed on the computer should include an up-to-date web browser (Microsoft Edge is recommended)
- USB headsets with microphones
- a webcam

Where whole-class lessons are delivered:

- large screen device with speakers, and PC/laptop connection with access to an up-to-date web browser
- an wide-angle webcam
- an echo-cancelling microphone

Students may need access to a printer and scanner.

## LEARNING

### Learning at SIDE

SIDE teachers are in regular communication with schools and students. SIDE uses two main platforms for teaching and learning.

**Webex** is the SIDE platform for live, online lessons. Two Webex lessons per week are timetabled for most subjects at SIDE

**Moodle** is SIDE's 24/7 learning management system where students access Webex links and may complete work with the guidance of their teachers.

SIDE utilises a range of additional digital learning tools and platforms. To ensure the best access to all digital learning tools, it is essential that schools enrolling students at SIDE support students and families to complete SIDE's [Third Party Services forms](#).
