Learning at SIDE

SIDE teachers are in regular communication with students and parents/caregivers/supervisors. SIDE uses two main platforms for teaching and learning.

Webex is the SIDE platform for live, online lessons. Lesson timetables will be provided to students after enrolment.

Moodle is SIDE's 24/7 learning management system where students complete work independently, under the direction and guidance of their teachers.

SIDE utilises a range of additional digital learning tools and platforms. To ensure the best access to all digital learning tools, it is essential that families complete SIDE's [Third Party Services forms](#).
