

Organising your day: things to consider

Getting all the equipment together

- Who is responsible?
- Who does what?
- What can your child do?

Getting the timetable right

- Decide which subject to do first. It often helps to do the most difficult subject first.
- Put the timetable on display.
- Negotiate the timetable with the child.
- Save the best for last.

Excursions

- Make the most out of excursions.
- Contact your teacher for specific information.
- Sometimes 'doing' and just talking can be enough.
